

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

COMMERCE OF THE UNITED STATES WITH EUROPE.

The following series of tables has been prepared for the purpose of showing the growth and development of the trade of the United States with the several countries of Europe, in response to a resolution of the first session of the Fifty-second Congress, 1892.

From 1790 to 1820 the Government records of the total values of our imports are fairly complete, but do not show, except for a few years, the articles imported. They show, however, domestic exports by articles, but do not distinguish the values of merchandise from coin and bullion imported and exported, nor the value of the commerce with each country.

By the act of February 10, 1820, a statistical division was created in the office of the Register of the Treasury for the purpose of collecting and publishing annually information in regard to our foreign commerce. Since that date there are complete records with respect to imports and exports of articles from and to each country, showing separately imports and exports of merchandise from coin and bullion.

The following tables are embraced in the series:

First. For the period from 1790 to 1820, the total values of exports from the United States to each country of Europe are exhibited. As before stated, the official records do not show the values of imports from each country prior to 1820.

Second. For the period from 1820 to 1892, tables are presented exhibiting the total values of imports and exports of merchandise and specie, respectively, in the trade with each country.

Third. For the period from 1871 to 1890, inclusive, a series of tables is presented showing the imports and exports of each article of merchandise in the trade with each country of Europe, annually.

IMPORTS AND EXPORTS OF FOREIGN MERCHANDISE

IN THE TRADE OF THE

UNITED STATES WITH COUNTRIES OF EUROPE,

1871-1890.

GENERAL EXPLANATIONS.

The classification of foreign commodities in the following tables has been considerably affected by the frequent changes in the tariff which occurred between 1870 and 1884, rendering difficult a comparison of the imports of all articles through the entire period of twenty years embraced in the tables.

The following tariff acts were enacted during the period:

General acts—

July 14, 1870, took effect January 1, 1871.

June 6, 1872, took effect August 1, 1872.

March 3, 1883, took effect July 1, 1883.

Special acts—

May 1, 1872, to make coffee and tea free after July 1, 1872.

July 1, 1879, to make salts of quinine and sulphate of quinine free from date.

Schedules for the classification of foreign merchandise in the monthly returns by countries were slightly changed, to conform to tariff acts in 1871, 1872, and 1873, and new schedules were issued to take effect August 31, 1878, and July 1, 1883, respectively.

The classification of articles of domestic exports, however, has run almost uniformly through the entire period of twenty years, presenting fewer difficulties in making comparisons of exports of articles for this period than are met with in imports and exports of foreign merchandise.

IMPORTS AND EXPORTS OF FOREIGN MERCHANDISE.

IMPORTS FROM AUSTRIA HUNGARY.

YEAR ENDING JUNE 30—	FREE OF DUTY.							
	Articles, the growth, prod- uce, and manufacture of the United States, returned.	Art works, the pro- duction of American artists.
